(inner knuckle joint)
- C.** (8) 3/8" Bushings (Middle)  
(12) for 10' Model
- D.** (4) 3/8" Bearings (out-  
side stern bracket)
- E.** (2) 5/16" Nylon Lock Nuts
- F.** (2) Ram-Spacers
- G.** (2) 3/8" Bushings  
(opposite side of ram spacers)
- H.** (2) 5/16" Bearings  
(outside cylinder mount)
- I.** (2) 1/4" Nylon Lock Nuts
- J.** (4) 1/4" White Bushings
- K.** (1) Spreader Block
- L.** (4) 3/8" Bushings  
(inner stern bracket)
- M.** (6) 3/8" Bearings (Outer)  
(10) for 10' Model
- N.** (4) 3/8" Bushings

### Installation Tools

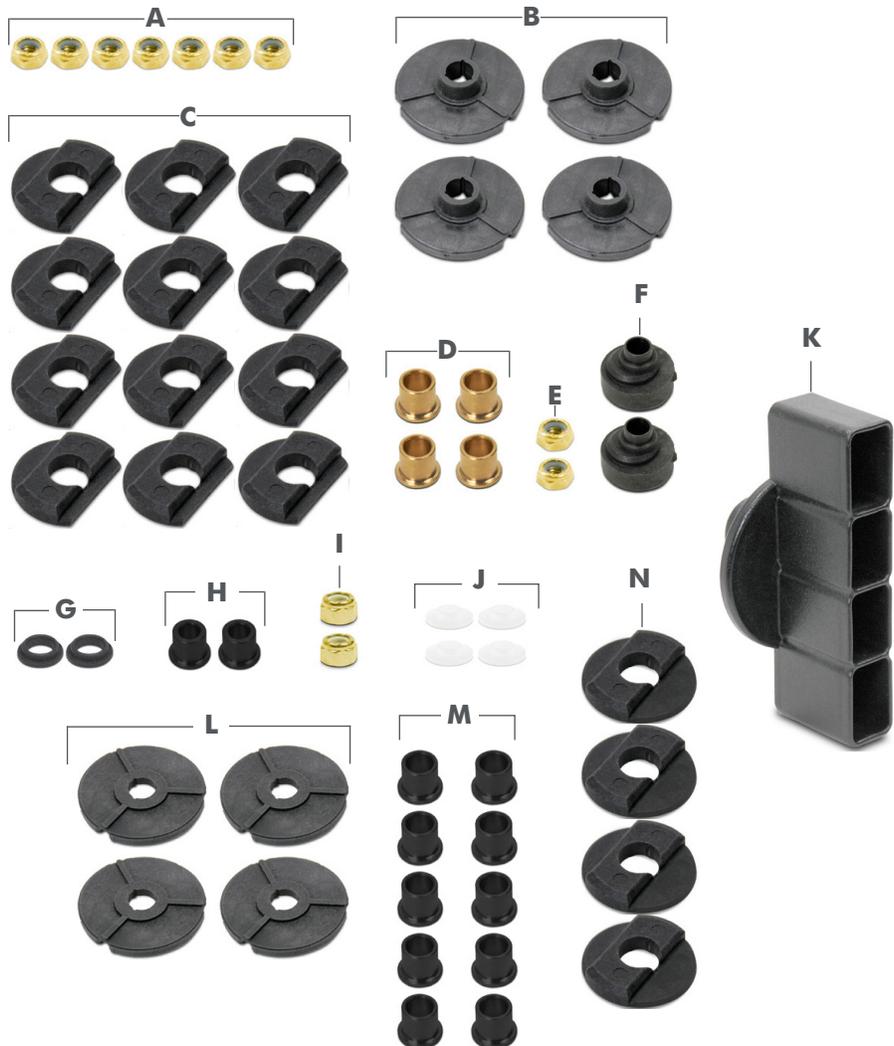

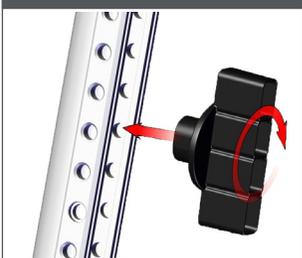

- 7/16", 1/2" and 9/16" Wrench
- 7/16", 1/2" and 9/16" Socket
- Ratchet
- Protective Gloves
- 1/4" Flat Punch
- Rubber Mallet

### NOTES:

- For all bushing replacements, lower the Power-Pole Anchor so the spike is touching the ground.
- Follow diagrams for proper hardware installation.

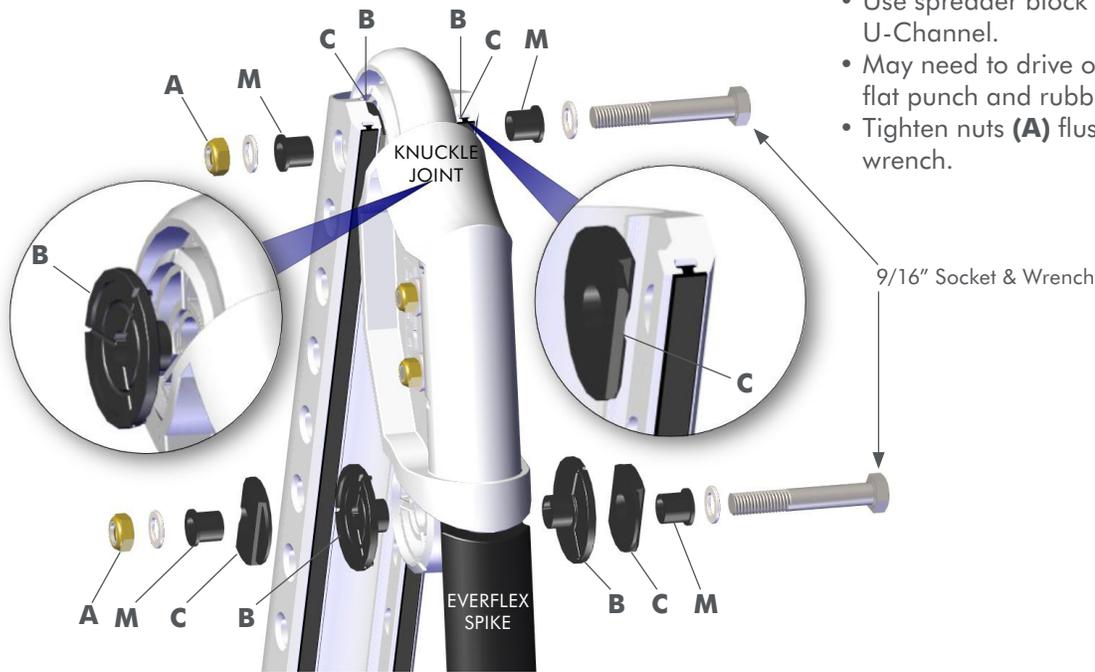

**WARNING:** Never touch spike with bare hands. Spike may become fibrous after sun exposure and use.

### Spreader Block (K) Use

Need help? Contact our Customer Service Team at **1 + 813.689.9932 Option 2**

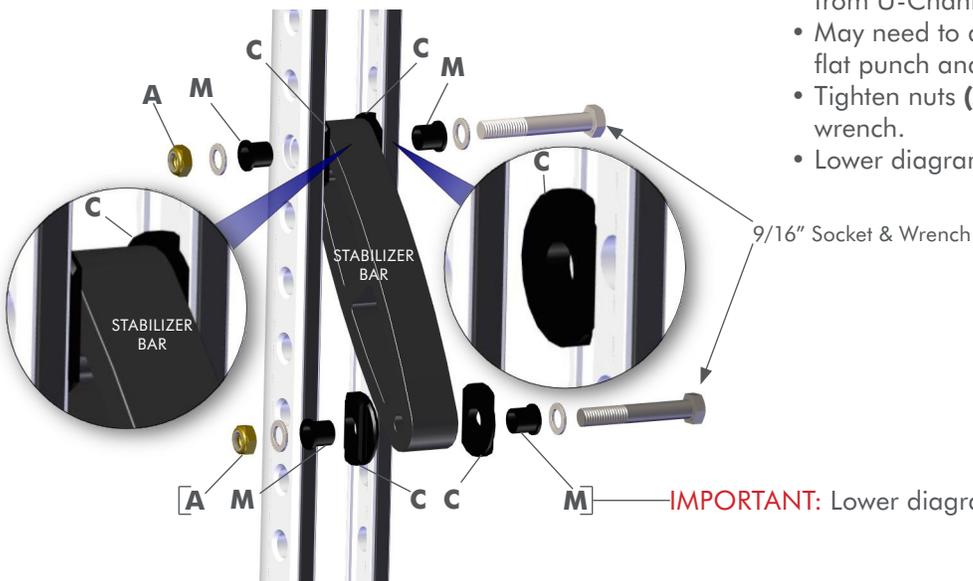

# BUSHING SET FOR BLADE KNUCKLE (Upper or Lower)

## NOTES:

- Use spreader block **(K)** to remove knuckle from U-Channel.
- May need to drive out bearings **(M)** using a 1/4" flat punch and rubber mallet.
- Tighten nuts **(A)** flush using a 9/16" socket and wrench.

# BUSHING SET FOR BLADE STABILIZER BAR

## NOTES:

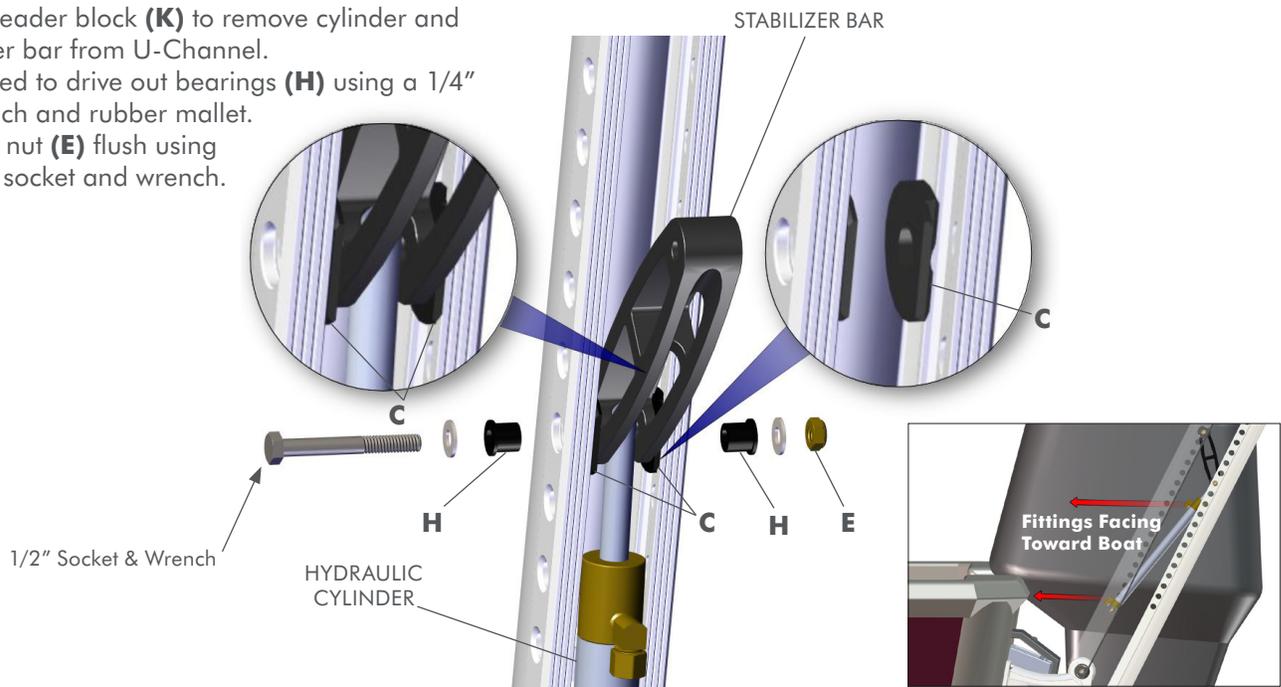

- Use spreader block **(K)** to remove stabilizer bar from U-Channel.
- May need to drive out bearings **(M)** using a 1/4" flat punch and rubber mallet.
- Tighten nuts **(A)** flush using a 9/16" socket and wrench.
- Lower diagram is for 10' models only.

**IMPORTANT:** Lower diagram only applies to 10' models.

# BUSHING SET FOR BLADE CYLINDER/STABILIZER BAR

## NOTES:

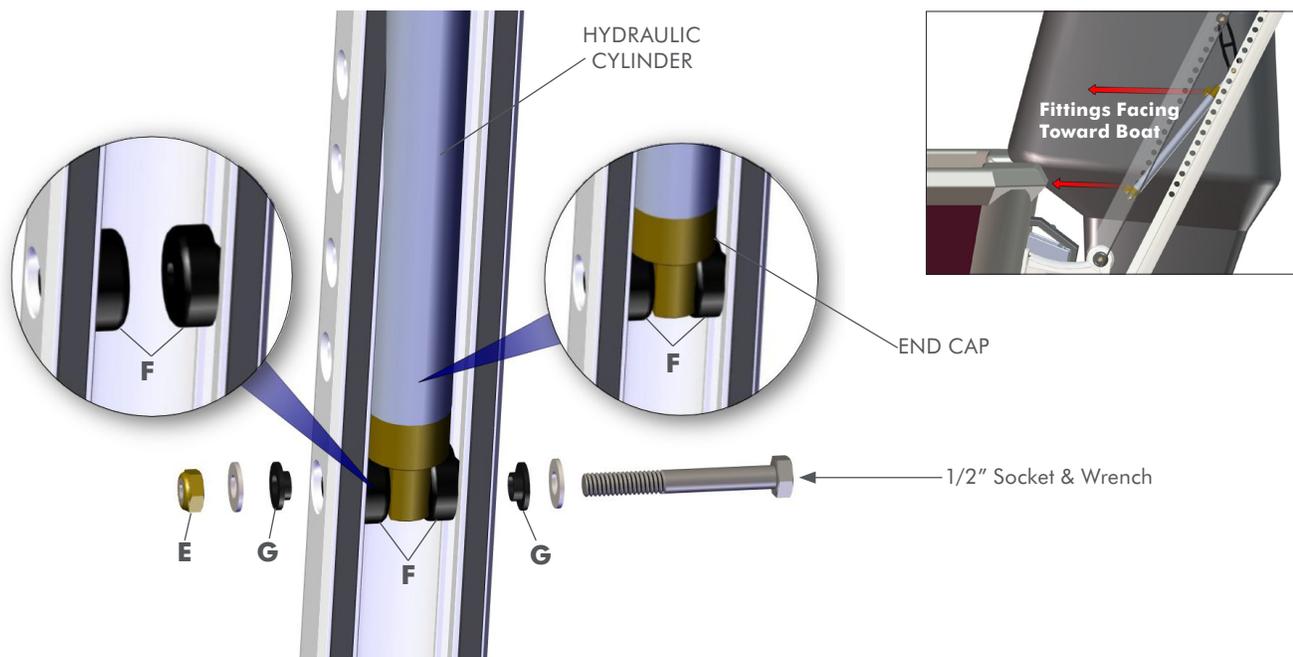

- Use spreader block (**K**) to remove cylinder and stabilizer bar from U-Channel.
- May need to drive out bearings (**H**) using a 1/4" flat punch and rubber mallet.
- Tighten nut (**E**) flush using a 1/2" socket and wrench.

# BUSHING SET FOR BLADE CYLINDER END CAP

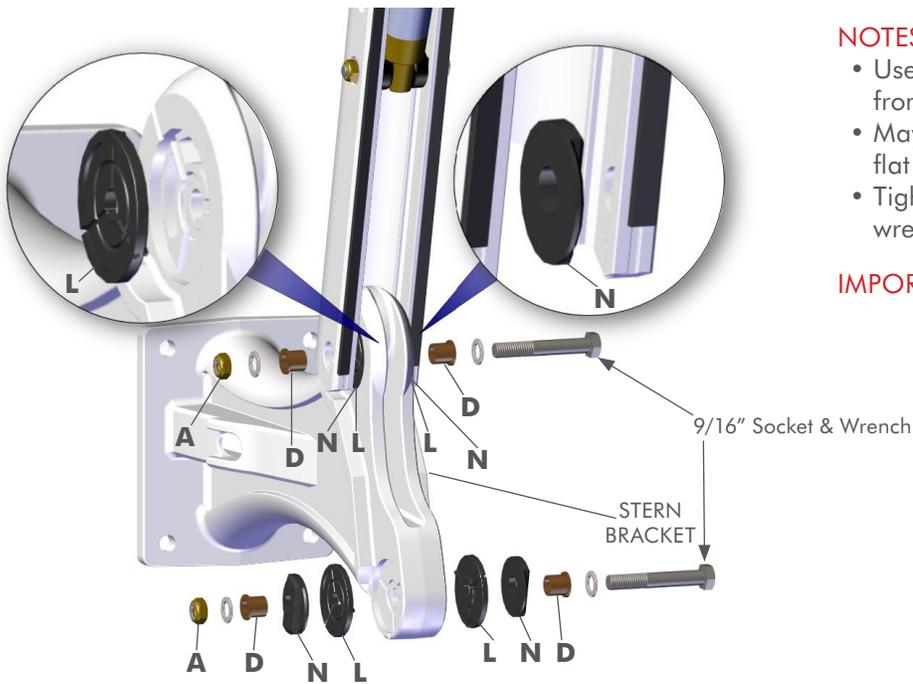

## NOTES:

- Tighten nut (**E**) flush using a 1/2" socket and wrench.
